

Respected Principal, Teachers and my dear friends.
A very good morning to all of you. There have been present some distinguished guests among us, who have spent almost two months with us. They had voluntarily come to teach us, not only the academic subjects but different kinds of sports items as well. Thanks to Sir Tom, Sir Kieren, Miss Elly and Miss Milly that they made us aware of such sports items which we had not seen or played before. Moreover, the language skills they taught us have a long lasting impact on our minds. They came as teachers, but became our friends. Their presence in the school for about two months time has passed so soon that we have come to realise how time flies. Spending so much time with you was really such a joyful experience for all of us that no one of us can easily forget. It is useless to mention here, how helpful you have been to all the students and teachers. Not even for a single moment, we felt that you are not one of us but the one who has come all the way from to share their knowledge with us. We are highly grateful to you that you shared your precious time for us, that is, for the children who are not related to you in any way. It was really a privilege to have learnt so much from you in such a short time. You really taught us how to behave sensibly. You never said, 'No' to anybody, be it a teacher or a student.
